- A. While Calculus I (Math 1337) is required for many schools, Calculus II (Math 1338) is not generally required for admission to most medical schools.
- B. Starting in 2015 the MCAT will include content from the social sciences. While these aren't prerequisites for admission, we suggest you take these courses in preparation for the MCAT.
- C. After taking genetics there are a number of upper level Biology courses you can take to meet this requirement. Consult your advisor and your Undergraduate Catalog for details.
- D. Students may complete Phys 1303/1105 & Phys 1304/1106 instead of Phys 1307/1105 & Phys 1308/1106. Note: Math 1338 is a prerequisite (or concurrent enrollment) for Phys 1304. Students majoring in Physics or Biochemistry should plan to take Organic Chemistry, Genetics and Physics in the sophomore year.
- E. Although three hours of Biochemistry are recommended (and by some schools, required) it is strongly recommended you also enroll in BIOL 5311 for additional MCAT preparation.
